DR. UPHAM'S

Vegetable Internal Remedy FOR THE PILES!

☞ **A Cure for Life Secured.** ☜

For the cure of Piles, Inflammation of the Liver and Spleen, Inflammation, Soreness and Ulceration of the Stomach, Bowels, Kidneys and Bladder Inflammatory and Mercurial Rheumatism Impurity of Blood Inflammation of the Spine and for the relief of Alarmed Ladies

THE VEGETABLE PILE ELECTUARY,

invented by Dr A. Upham a distinguished Physician of New York city, is offered to the afflicted as the most successful remedy and unfailing complaints, the Piles, ever offered to the American public

Mark this it is an INTERNAL REMEDY—not an external application, and will cure any case of Piles in the bleeding or blind, in external or internal and probably the only thing that will. There is no mistake about it It is a positive cure—*speedy and permanent* It is also a convenient medicine to take, and imparts to the general health in a remarkable manner

Each box contains twelve doses, at $1 3 cts per dose It is very mild in its operation, and may be taken in cases of the most acute inflammation without danger—All external applications are in the highest degree disagreeable, inconvenient and offensive, and from the very nature of the disease impossible to be used Upham's Electuary operates directly upon the blood, and thus removes the disease at its source and, REMOVING THE CAUSE, renders the cure CERTAIN and PERMANENT

EVELASTING DISEASES

Although the ELECTUARY was originally prepared for the cure of Piles, yet it has proved itself a medicine far superior to all others, in all diseases of an inflammatory character—with a determination of blood to any particular part or organ to inflammation and congestion of the Liver and spleen, Inflamation, Soreness and Ulceration of the Stomach, Bowels, Kidneys and Bladder, in inflammatory and mercurial Rheumatism it is the BEST Medicine ever discovered

IMPURITIES OF THE BLOOD

For all impurities of the Blood arising from the immoderate use of Mercury, or other causes, for all diseases of the Skin, all Scrofulous Affections—in all cases where the blood is impure by determined to the head, producing sore eyes and ulcerous DR UPHAM'S ELECTUARY is the remedy!

TO MARRIED LADIES

Married Ladies are almost infallibly subject to that painful & dangerous disease, the PILES, with some peculiar affection of the Stomach, Bowels and Spine we know of the back, flow of blood to the head &c—This Electuary is perfectly safe for Pregnant Ladies and the most delicate Infants that ever possibly be used, as it will not only remove the Piles and all attendant very diseases, WITHOUT PAIN or IRRITATION, but will improve in every case, a safe delivery and a state of constitution to set off more

CURE FOR LIFE GUARANTIED.

The Electuary contains NO MINERAL Medicines; no Calomel, Sarsaparilla, or other powerful drugs, but is entirely vegetable. No fear of taking cold while under the influence no change in diet necessary If it is not according to the directions, A CURE FOR LIFE IS GUARANTIED

Pamphlets giving valuable information respecting this Medicine may be had of Agents, gratis

GREAT SUCCESS OF UPHAM'S

PILE ELECTUARY.

Port and, Me., March 14, 1847.

Dr Upham—Dear Sir—I cannot express to you my sincere and heartfelt thanks for the wonderful cure I have experienced by the use of your truly valuable medicine. I have been a perfect martyr to the bleeding Piles or 10 years past, so much so that I became reduced to almost a skeleton, with loss of appetite, and a total derangement of the digestive organs My friends became alarmed, and so did I was a misery to myself I was all glad to give up my business, I had tried all kinds of medicine, had the best advice the Doctors in Boo on and this place could afford, spent much money—and been submitted to painful operations had become perfectly tired of life, and at the suggestion of my friends I was induced to try a box of your medicine The first I found no relief—two nights, still I persevered, and purchased a second, and I assure you, when I got be through, I found myself getting well, still kept on, and now I am a well man, my sister Sir, language cannot express the heart felt thanks that I am once more restored to health, and can in candor on to support my large family, dependent on me

You can use this letter as you please.

Yours respectfully, SAMUEL CHARLTON.

UNIVERSAL HISTORY,

FROM THE

Creation of the World

TO THE

Beginning of the Eighteenth Century;

BY THE LATE

Hon. ALEXANDER TYTLER,

LORD WOODHOUSELEE,

Senator of the College of Justice and Lord Commissioner of the Judiciary in Scotland, and formerly Professor of Civil History and Greek and Mathematics in the University of Edinburgh

THIS Work contains the whole course of lectures on Universal History delivered by the Professor while he occupied the University of Edinburgh. In preparation for the press was the last of his literary labors. It has gone through a large number of editions in England and America. The Work has been for many years and now is a text book in the first Universities of both countries and in all probability will be handed down to the end of time for the correctness of its facts of composition and faithfulness of detail as the most interesting and useful work on Universal History for the use it has been extant

The chief characteristic feature of the plan of the author, is that he regards the popular study of historians for general instruction to certain epochs or eras and proceeds to give the history of a nation or people through a long succession of years & pressing only when the history of some other nation may be superseded with the one under consideration as to become inseparable In this way the author gives the history of the world from the era selected, compiled from the best authority with great simplicity and perspicuity and his work cannot fail to recommend itself to the professional man, the student and the general reader

The present edition is comprised in two handsomely printed octavo volumes of 1000 pages neatly bound, and is offered at the low price of Three Dollars A liberal discount made to those buying to sell again or to teachers buying for their schools All orders by mail post paid promptly attended to

Whig and Courier.

Edm F. Segward,—Editor.

SATURDAY, DECEMBER 4, 1847.

☞ The speech which Mr Clay recently made to the people of Lexington, and through them to the country, for whenever he speaks on public affairs the whole people are desirous of hearing all he says, has furnished an occasion for the loco press to resort to all sorts of misrepresentations and to rake up and retail anew many slanders against him No man, verily, ever had so devoted and heart warm friends and more ruthless and brazen-faced enemies, than Mr Clay

The slanders against Mr Clay have been time and again refuted and exposed and no man with the slightest amount of honorable feeling would so debase himself as to retail those exploded slanders But some of the managers of the loco press are engaged in it

But the speech of Mr Clay's has caused the loco press to feel that it must do something to show the necessity for the war with Mexico — And here they as often undertake to make history as to regard its plain record They declare that Mexico declared the war and we are fighting her on account of that declaration But it is plain to all intelligent men that the immediate cause of the war was the marching of troops in to the territory in dispute between Mexico and the United States after the admission of Texas

Fearing that this statement about the declaration of war by Mexico will not quite answer, they go on to say that war was made imperative upon us by the aplications of Mexico upon our commerce In answer to this it only need be said that Andrew Jackson and Martin Van Buren entertained quite other views on the point and Mexico had agreed to pay a large amount of claims She was, to be sure, poor and distracted and did not pay as promptly as was desirable Just so, these presses, cry out, and so we are fighting to get this money' Fighting for the money acknowledged due And what sort of political ethics have we which authorizes the method of collecting debts? This position, like the preceding is a miserable pretext since the government at Washington through Mr Polk asked additional millions to acquire territory

We have neither space nor time to-day in which to show the various, contradictory, and miserable results of the loco press in order to avoid the force of the plain statements of Mr Clay He first told us contradictory assertions will excite curiosity and thus furnish an article for the press which the statesmen employ

☞ It is well known to our citizens generally that through the exertions of Mr W E Perkins music has been generally introduced into our common schools, and every visitor to our schools who has heard the sweet songs of the little folks, must have been highly gratified It has required a large amount of time and effort and skill to teach some three thousand children to sing This, Mr Hopkins has succeeded in doing, and he has now in training a large class who will in a short time give a public concert

So far Mr H has received but small pay — He began with the idea that each scholar attending the general gathering on Wednesday and Saturday afternoons at Market Hall, would very willingly pay the small sum of twenty-five cents a term of four months.

This method does not prove efficient, as no pupil attending the public school is debarred from the singing school, and the pay-bills short

It has been recommended to Mr H to call up on the public to sustain the continuance of music in our public schools, by a voluntary subscription It is to be hoped that every man who is interested in our public schools and who desires that his children attending them should enjoy the delights, and benefits of music in school and should be qualified to become correct singing men and women, will contribute to these objects when an opportunity is afforded, as they may be assured that for every dollar received, Mr Hopkins will give a full dollar's worth of service

☞ We have noticed within a few weeks several droves of cattle passing through this city, from the east, for Brighton market In conversation with one of our butchers upon the subject, he remarked, that the loss to the farmer, on a yoke of beef cattle, in expenses and shrinkage, in driving from Hancock county to Brighton, is equal to twenty dollars Here then is a strong argument with the farmer in favor of the encouragement of home manufactures—for bringing the producer and consumer into neighborhood, so that neither class shall be compelled to lose by the transportation for long distances from one to the other The up building of home labor—the system which shall bring together those required for the support of each others wants, is the true system of political economy which should particularly interest the people of Maine, and the surplus of labor should be sent off in articles which will bear the transportation with the least expense and loss

"Education,"

Says a truthful writer in Fraser's Magazine "does not commence with the alphabet It begins with a mother's look—with a fathers nod of approbation; or sign of reproof—with a sisters gentle pressure of the hands, or a brother's noble act of forbearance—with handfuls of flowers in green dewy meadows—with birdsnests admired—but not touched—with creeping ants and almost imperceptible emmets—with humming bees and glass beehives—with pleasant walks in shady lands—with thoughts directed in sweet and kindly tones and words to nature, to beauty, to acts of benevolence, to deeds of virtue, and to the source of all good; to God himself"

The friends of religious liberty in England would seem to be very sanguine in their expectations of the speedy termination of the Church and State alliance The Anti-State Church Society, which has within a few years grown to be a powerful body, held a meeting a short time since, at which Dr Pease, editor of the Edinburgh Review presided

The meeting was addressed by several distinguished speakers Mr Miall, Editor of the Non-Conformist, is reported in the London papers to have said he verily believed that two more Parliaments, lasting their natural terms, would be sufficient to carry the objects of the Association

Mr. Parsons —

I send a communication to your paper of Thursday signed "A NUMBER OF SCHOLARS" (but whether a big number or a little number I dont know,) in which they inform me, that in my letter to Polly last week, I was understood to fulminate upon the rights of those gentlemen, who support your paper and to give some thrusts at christianity and the christian church with an intention of upholding infidelity and heaping ridicule on the Bible They also inform me in that communication, that they dont like such stuff and then emphatically hint that, if you print any thing, that dont suite them they shall take your paper no more Now while I thank them for their *gentle manly* and *courteous* communication, I am happy in being able to assure them that they are laboring under an *entire misapprehension*, I didnot do no such thing, my letters were written, and went, in fairness, adapt of no such construction, and if they dont believe it Polly'l get the original and if they'll send up to her they can get it I hadent no such intentions and I am troubled that they should suspect me of any thing dishonorable I would address them a private note if I knowed em, but if they dont stop the paper fore they is printed they'll see it I have no sympathy with any unrighteous invasion of other mens rights or opinions

To the Editor of the Whig and Courier —

Dear Sir—I send you the enclosed letter for publication if you see fit to give it a place in your columns, will you correct a copy of the No, in which it is published, to the Rev Dr, P, and oblige, Your friend, H R N

A Letter to the Rev. Dr. Pomroy.

Dear Sir

In the "Mercury," of Tuesday, I find reports of your Lecture at the First Parish Church on Sabbath evening upon 'Modern Infidelity' — It was the first, I am told, of a Series which it is your design to give upon that topic. My reasons for addressing you this communication upon the subject of your Lecture, and for selecting this medium, will appear as I proceed Of your motives for entering upon this discussion at this time, I wish not to speak That there is much infidelity practical as well as theoretical, at the present day, is generally allowed That a narrow, sectarian spirit which seeks to magnify the differences of religious belief and to perpetuate the divisions that prevail in different branches of the Church may well be put down as one of the most fruitful sources of this evil, few will deny But to whatever we may refer its origin, christians of every name must deplore its existence, and be willing to vindicate the Gospel from the attacks of its avowed or its secret foes

Had you proposed, in your opening discourse, to enter upon an examination of the evidences of the Christian Faith or to consider the more common objections which are urged against the truth and inspiration of the Scriptures, a deeper interest might have been excited in your forth-coming Lectures Many who are sick for you a sincere regard, though of widely different religious views, would have esteemed it a privilege to listen to your discourses As it is however I cannot think that the position you have taken in regard to other sects, whose members, for intelligence, virtue or piety, will not suffer by a comparison with your own, and your declaration that "infidelity is preached from some of the pulpits of our City, will have the effect to advance what you may regard as truth, to check the spread of views you may deem erroneous and sceptical, or to lead either "the young" or the old who may give you a hearing, into the church of Christ I must own my surprise at your remarks upon infidelity as connected with some of the reforms of our age Ridicule nor assumption can suffice where facts and argument are needed, and I trust it was in this portion of your discourse that you consented to employ a style of expression to which you are not accustomed in your usual pulpit communications Evil minded men may sometimes engage in reforms, as they are sometimes found within christian churches But do you regard all who are seeking to abolish *capital punishment*,—among whom he certainly find some of the purest and most enlightened men of our own or of other lands,—as the settled foes of all religion? And if there are those who, with Prof Upham and other Hebrew scholars of no mean authority, understand the language addressed to Noah "Whoso sheddeth man's blood, by man shall his blood be shed," in a sense differing from your own, will you accuse them and him of a 'bold denial of the word of God?' Some philanthropists, reputed by the noblest aims, may yet mistake in their treatment of the vile and criminal, but must we look upon all who like a HOWARD or a FRYE sound the bugle note of love, love in the ear of the fallen and degraded who visit the prisoner in his cell and seek to win him to virtue and to God, as scoffers at piety, or enemies of the Gospel? Cannot you suffer men to 'cast-out devils' except they walk with you? And has not a spirit like that which you seemed to manifest in your discourse toward the enterprises to which I have now referred, led many to forsake the Church and forced them into open and avowed infidelity?

I proceed now to your main enquiry "what is infidelity?" And here, it must be allowed, that your definition was of a somewhat novel character I find the following remarks attributed to you upon this point

"A man who says there is no God is an atheist He who denies the Bible is a deist— A man who rejects parts of the Bible is a heretic He who receives the whole Bible, but rejects its essential doctrines is an infidel And he who rejects a part of them is in error

The 'essential doctrines,' you proceed to name They are, in brief, those held in common by the Evangelical church. Your lectures, therefore, I would appear from your language, are directed not against Atheism, nor Deism indeed, but against such 'as receive the whole Bible, and are not able to find the creeds of Evangelical christians written therein The Unitarian, Universalist, and Swedenborgian congregations (haply the *Catholics* are only 'in error,') are infidel, and infidelity is openly disseminated from their pulpits This is the plain, necessary inference from your premises By their fruits ye do not judge them You do not impeach their character You decide by their faith Weighed in your balance, they are found wanting I am not surprised at your position here It is by no means new I admire your frankness I would that all who are of a similar opinion would be as ingenuous and firm and not commence a retreat at the first discharge of an enemy's gun Yet, Sir, your course is somewhat singular for a protestant christian minister You affirm that he who rejects the doctrine of the Trinity, denies the Bible This may satisfy yourself and your friends But in this positive and dogmatical statement, do you not assume the very point at issue and a point which can never be proved, viz —*That your interpretation of the Bible is infallibly correct?* In the exercise of your individual judgment, you may find the doctrine of the Trinity writ en in the scriptures But another man, in the exercise of his individual judgement, after a care ul examination of the inspired volume, may come to a very different conclusion, to a belief in one God, and in one Mediator between God and men, the man Christ Jesus And do you feel authorized to call that man an infidel? The world honor him for his virtues and regard him as sincere and conscientious yourself His *faith* is unpopular He incurs odium and reproach for its sake He contributes freely of his means to promote its spread, he gives his time and talents to its defence—and yet, because he will not subscribe to your creed, or allow that any man except Christ is his spiritual Master, you brand him as an infidel

It must be plain to all that here are two distinct questions, the first relating to the proper *interpretation* of the Bible, and the second to its *authority* As a Unitarian—for I confess that, after the manner which you call heresy do worship the true God of Moses and Christ, *I do not reject the Bible* As a Universalist *I do not deny the authority of the Bible* I bow to its decisions I deny that, by any fair interpretation, the doctrine of eternal punishment can be deduced from the Bible I firmly believe that it reveals the final holiness and consequent felicity of all who die in Adam Such is my faith, and though I do not invite, I would not shrink from a discussion upon the points of difference between us But I am aware, and you cannot be ignorant, that this is a question of interpretation, not of denial You not receive your express son, and you dispute from mere, — but are both *submit the authority of the Bible in all matters of faith and practice*.

You will not be surprised, therefore, when you consider the fair and legitimate inferences to be drawn from your statements, that, as I must, with a due respect for your age and standing, I have taken the liberty to make these remarks upon your first Lecture

Many People, and Paul I knew and believe they spake and wrote as they were moved by God, but my dear Sir, has Christ enjoined you or the Evangelical Church to interpret Moses and Paul, and is it probably the same thing to dissent from your *interpretation* as to deny *their authority*? May I not ask, "why smite thou a priest in arrest? And when was the Congregational Church created by God to be the sole depository of the "true faith," and the only authorized interpreter of his revealed word?

Was it while there seemed in the lap of ages, as has it been since that the Days of the Reformation? As Christ and his apostles are silent upon this point, it will be gratifying to many, if you shall be able to furnish us with satisfactory evidence.

Pardon me for thus addressing you upon this letter by way of reminding the following question from a Bishop of the English Church:—"I have two great complaining the truth of revealed religion, we insist not only the certainty of the divine mission of Most god of Jesus, but the truths of the several doctrines promulgated by them to mankind Now you may ask me what those doctrines are). I know what they are to me but pretending to no degree of infallibility I think it safer to tell you where they are contained, than what they are They are contained in the Bible, and if, on the reading of that Book, your sentiments concerning the doctrines of Christianity should be different from those of your neighbor, or from those of the Church, he persuaded on your part that infallibility appertains as little to you as it does to the church of which you are a member or to any individual, who differs from you "—*Watson's charge to the clergy of the Diocese of Landaff* 1796.

I am, Dear Sir,
Yours, &c, H R NYE

Govern your Tongue

More sin, it is probable, is committed, and more mischief done by this small member than in all other ways The faculty of speech is one of our most useful endowments, but it is exceedingly liable to abuse He who knows how to bridle his tongue, is therefore, in Scripture denominated "a perfect man" and made of him "who seemeth to be religious and bridleth not his tongue" it is declared that that man's religion is vain" The words which we utter are a fair index of our moral state of mind "By thy words," saith our Lord, shalt thou be justified, and by thy words shalt thou be condemned" Not only are sins of the tongue more numerous than other sins, but some of them are the most heinous of which man can be guilty—even that one sin which has no forgiveness, is a sin of the tongue —*Dr Alexander*

The Race and the Merrimack.

Here are two rills, which from one source flow,
But Eastward one, the other Westward flies,
But to a common goal their journey go —
But this one's path along green meadows lies,
Through flowery banks, and under softest skies,
That o'er its rocky bed, with turbid flow,
Mid noise and tumult to the ocean flies
So from one threshold brothers may depart,
On life's long journey each his separate way —
One, through divinest science, with happiest heart
One o'er hard, frowning, arid wastes and grey,
But both at last their heads on the same bosom lay

Waldoboro, Me, July 30, 1845.

Dear Sir Having experienced great benefit from your invaluable medicine, I feel it my duty and privilege to let the world know what it has done for me. Possessed of a strong constitution naturally, I had enjoyed perfect health previous to the spring of 1843, when I was troubled with a difficulty in my left side attended with considerable pain Some time in July I was violently attacked with a cough, which continued until fall, when I was confined to the house eight months, during which time my cough was very severe, I frequently had spells of coughing which lasted two hours, daily raised large quantities of disagreeable matter, accompanied with blood —sometimes I raised a quart of blood at a time, I consulted three physicians, all of whom did their best to restore me, gave me up, said they could do no more for me, I must die, it was impossible for me to live but a short time One of them said my lungs were gone At this critical moment, when eminent physicians had exhausted their skill friends despaired of my life, my own hope of recovery as an end, I resorted to

DR WISTAR'S BALSAM OF WILD CHERRY.

When I had taken one and a half bottles those severe spells of coughing were removed I continued taking the Balsam until spring 1844 when I ceased to feel it in the lungs, my health and strength improved so that I left the house, but was not able to work for a year Now my health is good I am able to do a day's work every day on my farm. All who would while away a long winter evening pleasantly and profitably are invited to join this class, and unite in the joyousness of singing and make sweet music contrast sublimely with the wildness of the wintry blast

Ye louts of melancholy, to the singer a prey,
Come learn to sing—and 'drive dull care away'

THE GRAEFENBERG REMEDIES

THERE ARE THE MOST CONCLUSIVE REASONS why that should be [illegible] "GRAEFENBERG" blessing [illegible] that is [illegible] and great medical learning and experience are brought to bear upon the exposition and manufacture of a PILL. Why may not this long devotion to this division of medical science be crowned with the success that attends the sacrifice of small fortunes and toil in art or letters? There is no reason, and it is but the simplest dictate of the simplest common sense to say that a Pill thus produced will be a perfect article as can be made by man. *Twenty five years devotion* to any one subject will give a man of ability the mastery over it. This labor has been bestowed upon the

Graefenberg Vegetable Pills

and they are presented to the public with claims unparalleled in the whole history of medical science

It will be seen, in tracing the history of all great inventions, that they were not made or discovered until the arrival of what may be termed THE FULNESS OF TIME The mariner's compass, for instance, was not invented until in the "fullness of time" it was needed. The *loadstone* always was at man's feet, but he never knew what a wonderful and unerring guide was treasured in its silent bosom, until the Divinely appointed time drew near when distant continents and islands were to be unveiled, & bold it now transferred to the bosom of the adventurous sailor, enabling him to launch far away upon unknown Oceans, instead of timidly sailing within sight of familiar land marks

So with the discovery of the New World, upon whose shores was to arise this Great Nation to a power, & glory, unequalled by and beyond the conception of the wild est day dream The Bible would not reveal to its highest study the fullness of time drew near for the revelation of the New, and behold the immortal Columbus, from the forecastle of his drenched and leaky vessel, found himself face to face with the mountain of pearl & gold basis of the magnetic telegraph Each of these had its own "fullness of time," marked, distinct and Providential

☞ IN MEDICAL SCIENCE THE SAME GREAT PHILOSOPHICAL PRINCIPLE IS EQUALLY MARKED Most beautiful are the illustrations and proofs of this which are to be found in the history of the world. We can trace them from the Mosaic dispensations down to the present hour, all of them teaching us the lesson and giving us the hope that *something yet better* to heal human maladies is at hand

So this principle is as true of Medical as of Physical science is capable shown in the

GRAEFENBERG GAZETTE,

which is furnished gratuitously to all who wish it—Its

Graefenberg Pills,

are deemed by all who have tested them to be an immeasurable advance upon all other medical combinations and discoveries hitherto known, and they are announced as

THE GREAT REMEDIAL TRIUMPH.

The inventor of these Pills rests his theory upon no arbitrary dogma of ordinary medical teachers. Plunging himself upon the revelation of the

ALMIGHTY CREATOR,

THAT

"THE BLOOD IS THE LIFE,"

he requires all of his disciples and his patients *make pure the life current* in its long through their veins and arteries, to form the ever [illegible] PERMANENT cure Rejecting the sanguine theory and practice of others, but bright and true he can give them and can give others, but bright and joyous health and freedom from a pure blood

But a most valuable thought here comes in! So countless are the organisms which are practiced upon the public by the quacks and so numerous and boastful are the [illegible] diversified, that the reader may be slow to believe in this Great Remedy A word, therefore, on this point

In the first place, READ THE GRAEFENBERG GAZETTE No matter how sceptical you may now be, that paper will convince you! Thousands *have been* convinced in every State and Territory in the Union, and among them distinguished statesmen, jurists, clergymen, physicians everywhere The bare enumeration of their names would fill this page Let the reader send to the most convenient agency for a copy of the Gazette, which can be had

GRATIS!!

In the second place, TRY THE PILLS It will cost but the merest trifle, and I will in reduce you to a medicine which you will deem a blessing to the end of your days A thousand things press upon the minds of the adventurer to which they would refuse to pay to the reader, but the limits of this advertisement forbid But let any one afflicted with the following diseases make trial of the Graefenberg Pills and they will be PERMANENT LY CURED!

Asthma	*Flatulency*
Bilious Complaints,	*Fever Bilious, or Whites*
Colds	*Fevers Scarlet,*
Female derangement in,	*Green Sickness,*

In all bilious or chronic disorders, these Pills achieve the most wonderful triumph HERE THEY DEFY COMPETITION And as the susceptibility of the American constitution to these diseases, they are aptly styled by some

The Pill of the New World.

Their wonderful efficacy in these complaints arises from their power to OPEN THE PORES CLEANSE AND PURIFY THE BLOOD and RESTORE AND RENEW MAKE THE CHANGE FROM HEALTHY DISEASE AND TO GIVE TONE AND STRENGTH TO THE WHOLE SYSTEM

Thus imparted within six hours of an ordinary dose, to give the reason for the most extraordinary success of these Pills But reasons do exist, which have abundantly satisfied the minds of thousands in this country and among them the accomplished Physicians, Jurists, Clergymen, and private citizens, female and female

☞ NUMEROUS CERTIFICATES of the wonderful efficacy of these Pills might be presented, but a certificate at these days is scarcely worth the paper on which it is printed A few extracts from the correspondence of the Company, will, however be given

From Indiana

"Your order in the enterprise of the day for the meanwhile will astonish its originators It is destined to effect a complete revolution in the medical world" From a Justice of the Peace in Western New York

"I have sold a number of boxes to the exclusion of all others. They have given entire satisfaction, and they are destined to become the most popular Pill of the day"

From Toledo Ohio

"Having heard so much, and witnessed two or three cases treated in the mode directed by your Agent, I have thought it important you should have an agent at this place In my opinion, much good can be done in this locality by your medicines, than by the old ones

I address you at the instance of a friend who is making a thorough trial of you remedies, and with complete success"

From a Distinguished Gentleman of Boston

Gentlemen,

I cannot refrain from troubling you with a few lines to express my great pleasure in being able to say that I have experienced the greatest relief from the effect of your Pills For many years I have suffered much from constipation, which has disarranged my whole system, and I have not known a day's good health for many years past and being an old man, I despaired of ever again enjoying life, but a friend recommended me to try your Pills which I did, although without any confidence in the result, I am happy to inform you, has far exceeded my expectations, the cause of my suffering is nearly removed, and I feel my self much and strength daily renewed, and I am satisfied that if I continue your Pills a short time, will be restored to perfect health which I am now acknowledged by the whole community and will become the most popular medicine of the day"

[From Rome ——, or Georgia]

Dear ——

Feeling willing to you just upon the subject of my ill health, I have been taking your medicine, and am pleased to state, that they have been of great service to me, and if they continue to give me the relief I have already felt, I shall bless the day you sent them to me I need not allude again to the sufferings I have before told you of, but intend to preserve, and hope to be able, the next time I write, to give you the happy information of a perfect cure I have heard of many instances in my neighborhood where they have performed some extraordinary cures"

From an Episcopal Bishop

Gentlemen—I consider it to be the duty of every Christian to make known to the world any advantages that they may have derived by accident or from any discovery of their own, and with this sentiment strongly impressed on my mind, I feel great gratification in having it in my power to speak in the highest terms of the value of discovery you have made in the production of your Pills I was induced to try them, from the philosophical manner in which you have reasoned on the subject, and I must do myself the pleasure, and you the justice to say that I had no assumption no speedily an effect could be derived at. My complaint has been that of the Liver, from which I despaired of getting better, or even taking your Pills, I had my general health, spirits and appetite so much improved that hope to find myself able to go about preaching, if it pleases I will send to your agent for more Pills when I shall require them

From every section of the country similar testimonials are daily received, and the Company will only add that the Pills are for sale by all respectable druggists throughout the United States, and in Europe, and that Agencies will be established in all the principal towns and cities throughout the Union, where the Pills may be procured by the wholesale or retail

Messrs J. Winer & Co Sirs—My child of, five years of age, was for more than two years severely afflicted with worms, during which time we gave her different medicines recommended in such cases, but they produced no beneficial effects I at length procured a bottle of your Canadian Vermifuge, and gave it to her which caused her to pass a large number of worms, since then she has been in the enjoyment of perfect health.
